

**A self-service platform that combines transparency and innovation to help your business manage equipment and lease data more efficiently.**

The technology and other equipment your employees use every day is critical to your business. Whether you are manually tracking your assets, needing insight into billing details or planning for upcoming technology needs, Circadia can help.

**ON DEMAND ACCESS TO YOUR LEASE DATA**

- Real time asset-level details such as equipment type, location, cost, rent and lease expiration on equipment financed through us
- Personalized views and reporting to analyze data at a glance and easily share it with others
- Audit log to monitor serial number, location and other updates made to asset records
- Billing information provided at a summary and asset level
- Clear view of lease maturity to initiate end of term actions for assets financed through us

**FREEDOM TO MANAGE YOUR INFORMATION**

- Dynamic, interactive graphs to visually explore data and asset-level details
- Bookmark and intuitive search capabilities for quick retrieval of information
- Customizable data fields to track information specific to your business
- Upload information on assets you own or finance through other providers
- Submit data updates and service requests through Circadia

**A TEAM COMMITTED TO YOUR SUCCESS**

Our Customer Experience team is available to answer questions, offer best practices, provide training and more. From onboarding assistance to user support, we help you establish solutions that enable you to efficiently manage your lease data and realize the full potential of Circadia.

**ELEVATE YOUR OPERATIONS**
