

ENVIRONMENTAL POLICY STATEMENT

HUNTINGTON'S COMMITMENT TO THE ENVIRONMENT

Huntington recognizes that a healthy, sustainable future requires environmental stewardship, and commits to increasing our environmental performance and reducing our carbon footprint. Led by the CEO and executive management, we make this commitment as a natural extension of the corporate values our colleagues embody in their everyday actions: look out for people, do the right thing, make people's lives better, and strengthen the communities we serve.

Over the past year, we've met key benchmarks in our energy conservation and sustainability efforts, including: reducing our energy consumption, increasing our use of renewable energy, reducing paper, installing electric vehicle charging stations at our Operations facility, and managing our risks associated with environmental performance. We have more to do and we are committed to achieving our environmental objectives.

COMMITMENT TO ADDRESS CLIMATE CHANGE

Huntington's recognizes that addressing climate change is important to our stakeholders, customers and colleagues. Our commitment to reducing the impacts of climate change includes the following actions:

- Incorporating environmental goals into the methods we use to build and renovate our buildings
- Standardizing equipment efficiency standards across our footprint
- Increasing our portfolio's ENERGY STAR scores for Huntington facilities
- Ensuring we are able to measure and monitor environmental performance
- Engaging and educating Huntington colleagues on sustainability on a continuing basis
- Continuing our ongoing Project Papercut, reducing paper consumption by encouraging colleagues to print less and offering paperless alternatives to customers
- Continuing our partnership with SMRT Columbus to implement and promote electric vehicles, electric vehicle charging stations and colleague ride-share efforts
- Implementing single stream recycling programs throughout Huntington Corporate facilities

COMMITMENT TO ADDRESS ENVIRONMENTAL RISK

Huntington acknowledges the focused effort required to address environmental risk, and commits to the following actions:

- Huntington's Energy and Sustainability department will study best practices for sustainability in the marketplace, and identify opportunities for implementing
- Huntington's Board of Directors will monitor stakeholder demands related to climate change
- Huntington's Renewable Financing program will consider the importance of energy financing and the value of renewable technology and energy efficiency projects
- Huntington will regularly evaluate potential renewable and energy efficiency business opportunities that would have an impact on reducing Huntington's carbon footprint

Huntington's commitment to environmental sustainability practices to lower our carbon footprint and reduce the impacts of climate change is part of our culture of making people's lives better and strengthening the communities we serve.
